PROFESSIONAL SUMMARY

Results-driven Front End Developer with expertise in HTML, CSS, and JavaScript. Proven ability to translate design concepts into responsive, user-friendly websites. Collaborative team player with strong problem-solving skills and a commitment to staying updated on industry trends. Eager to contribute technical prowess and creativity to elevate web development projects.

WORK EXPERIENCE

Front End Developer, Digital Ally

Jun 2022 – Feb 2024

- Crafted the UI/UX for Digital Ally's SPAs (FleetVu and Evo Web HD) using Figma, and implemented them with Vue, Node, SASS, and AWS. Resolved issues and addressed feedback from 30 active customers post-launch.
- Led team in design choices and front-end technologies, while mentoring colleagues to tackle complex issues and ensure customer satisfaction through collaborative problem-solving.

Front End Developer, Torch AI

Oct 2021 – Apr 2022

- Spearheaded the development of Torch AI's public-facing website using Next JS, Contentful, and custom CSS animations, adhering to company standards and user preferences.
- Collaborated closely with the team to translate concepts from Figma, implementing custom React components and API integration for automatic press release updates and career postings, enhancing user engagement and experience.

Production Software Engineer , Cerner

Sep 2020 – Oct 2021

- Engaged with clients daily, providing on-call technical support and maintenance for Cerner products. Adeptly troubleshooting front-end and back-end issues utilizing SQL, JVM servers, and bash scripting.
- Offered assistance to team members and staff in resolving issues, managing tickets proficiently, even in high-pressure and time-constrained situations.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript

Technologies: React, Next.js, Tailwind Storybook, SASS, Bootstrap, Vite, npm, Git, Figma, Photoshop

EDUCATION

Bachelor of Science , Computer Science, Baker University

May 2015

PROJECTS

Developer, Rockstar Renovation (rockstarreno.com/)

Jan 2023 – March 2023

- Solely spearheaded the ground-up development of Rockstar Renovations' website, utilizing Figma for design mockups and implementing Astro.js, HTML, and CSS for seamless functionality and captivating aesthetics.
- Enhanced user experience and increased engagement through responsive design and intuitive navigation, this project reached over 20+ customers and helped streamlined revenue for the company.
